## What features are important to you in considering increased Building Heights and/or Densities?

1. Is the building height [i.e. the number of floors] your main concern in looking at new development?  
 Yes       No
2. If the massing of the building [i.e. its physical shape] maintained community view corridors and provided open space, would this affect your opinion of the building height?  
 Yes       No
3. Would the amenities being offered to the community as part of a development proposal affect your opinion of maximum building heights and densities?  
 Yes       No
4. What do you think is an appropriate maximum building height for Esquimalt?  
\_\_\_\_\_
5. If a developer were to propose amenities and request density bonusing, as allowed under the current Official Community Plan, which amenities do you think should qualify for a significant increase to the allowable height or density [i.e. floor area ratio] of a development?  
 Day Care Facility  
 Public Art  
 Privately-owned but Publicly-accessible Open space  
 Affordable Housing  
 Contributions towards street and boulevard enhancements, including street furniture and decorative lighting  
 Special Needs Housing [e.g. accessible housing or seniors housing]  
 Contributions towards the enhancement of public recreation facilities  
 Preservation of heritage structures or features

continued on next page.....

6. Which three of the above amenities are most important to you?

1) \_\_\_\_\_

2) \_\_\_\_\_

3) \_\_\_\_\_

7. Is there anything else you would like to tell us?
