MATERIALS WHICH MUST BE SUBMITTED WITH A DEVELOPMENT APPLICATION

The following items, with the exception of the model, are required in support of most Development Applications and must be submitted at the time of application. Please call Development Services [250-414-7103] if you are unfamiliar with these requirements or to clarify which of the following items are required for your application.

Please provide 3 full-sized sets of the following plans plus 1 set reduced to 11' x 17" [28 cm x 43 cm]:

- Site Plan drawn to scale** showing building setbacks, parking areas, driveways and gradients, location and footprint of all buildings, and geodetic elevations of the existing grade at each building corner. Plans must be in Metric measurements or show Metric equivalents for all dimensions.
- Landscape Plan** prepared by a Registered Landscape Architect or Qualified Landscape Designer showing planting areas; proposed plant species; number and size of plants; existing and proposed trees; location of fences, decks, pathways, patios and other paved surfaces; and for multiple family residential projects, the location, and size of usable open space areas (as required by Zoning Bylaw 1992. No. 2050.). Include an estimate of material and installation costs for all landscaping (excluding driveways and parking areas).
- Architectural Plans** showing the dimensions of all structures, basic floor plans and typical unit plans plus elevations of each face of each structure with natural and average grades indicated.

Please provide 1 of each of the following:

- ◆ **BC Land Surveyors Certificate [BCLS]** confirming the current parcel size, location of existing and proposed buildings (including geodetics at building corners), location and size of all trees; and if subdivision is proposed, the new lot configuration and lot sizes.
- ◆ **State of Title Certificate and copies of all associated documents** (no older than 30 days) from Land Title and Survey Authority Office confirming the current registered owner(s) of the property. If you are not the registered owner, please complete and attach Page 2 of the Development Application - "Authorization of Owner to make an Application".
- ◆ **Building Summary** listing the site area, number of dwelling units proposed, floor area ratio, lot coverage, and number of parking spaces proposed.
- ◆ **Colour Board** with samples, photos, descriptions of proposed exterior finishing materials and their colours.
- ◆ **Green Building and Development:** Applicants for rezoning and development permits are required to complete the Township of Esquimalt's Green Building Checklist, describing features that will be incorporated into the development.
- ◆ **Three-Dimensional Scale Model** showing the massing and siting of the proposed development in relation to neighbouring buildings [only required for rezoning applications for residential projects of more than 14 units].

PLEASE CONSULT WITH DEVELOPMENT SERVICES STAFF, PRIOR TO SUBMISSION, TO DETERMINE WHICH MATERIALS ARE REQUIRED FOR YOUR PROJECT. MISSING MATERIALS CAUSE DELAYS.

APPLICATION REVIEW: Your application and plans may be reviewed by some or all of the following:

- Municipal Departments
- Advisory Planning Commission
- Design Review Committee
- Regional, Provincial and Federal government agencies
- Council
- Neighbouring property owners and tenants
- Neighbourhood Associations

APPLICATION FEES: Please contact Development Services [250-414-7103] to determine the total fees for your application. The appropriate fees must be submitted at the time of application. Owners may be billed for legal costs.

SIGNAGE, ADVERTISING AND PUBLIC NOTIFICATION

This section applies only to Official Community Plan Amendments and Rezoning Applications.

The following is provided for convenience; in case of discrepancy consult Development Application Procedures and Fees Bylaw No. 2791, 2012 (as amended).

SIGNAGE

Once your application has been received by Development Services, you will be given a sign which is to be posted on the subject property in accordance with the following:

- The Sign must be placed at the front property line facing the street and if the subject property fronts onto more than one street a Sign must be placed on each street frontage;
- If the property frontage is greater than 50 metres [164 ft.] in length, one Sign will be required for every 50 metres;
- The Signs erected shall be those provided by the municipality for such purposes;
- The Sign shall be mounted on a post and be situated a minimum of 1 metre [3.3 ft.] above the ground but no higher than 2 metres [6.6 ft.] above the ground;
- The Sign must be maintained in good repair and defaced or stolen Signs must be replaced for the duration of the notification period;
- The Sign must be removed from the property immediately following Council's decision to approve or deny the application.

If Signs are not displayed as described above, Council may consider cancelling the Public Hearing with the costs of cancellation being borne by the applicant.

ADVERTISING

Each application for Rezoning or an Amendment to the Official Community Plan must be given a Public Hearing. The costs involved in advertising the Public Hearing are borne by the applicant. To reach as many as possible of the individuals who may be affected by an application and to fulfill statutory notification requirements, the Municipal Council has directed that advertisements appear in two consecutive issues of the Victoria (Esquimalt) News.

The estimated cost for this advertising is currently \$2500. A deposit in that amount is required at the time of application. If actual advertising costs are less than the deposit, a refund will be issued; if the actual costs are greater, the applicant will be invoiced for the difference.

PUBLIC NOTIFICATION

Applicants requesting an amendment to the Zoning Bylaw or Official Community Plan must consult with residents and owners of property in the affected neighbourhood. The purpose of this consultation is to solicit neighbourhood input and public opinion and where feasible address those suggestions in the proposal.

Rezoning applications proposing an increase in the allowable residential density of a parcel will not be forwarded to a Public Hearing unless the applicant can demonstrate that they have conducted at least one public meeting and consulted with the affected neighbourhood in a fair and meaningful way.
