

# User Guide

## Step by step

Please read this guide carefully before using the station and thoroughly follow all steps. Improper use of this product may cause serious injury or death.

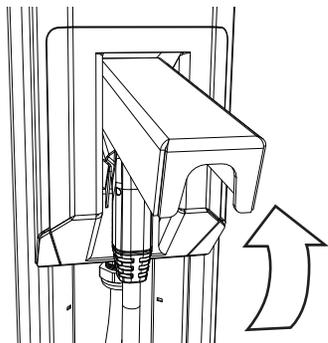

- 1 Hold your card near the reader when prompted by the display.

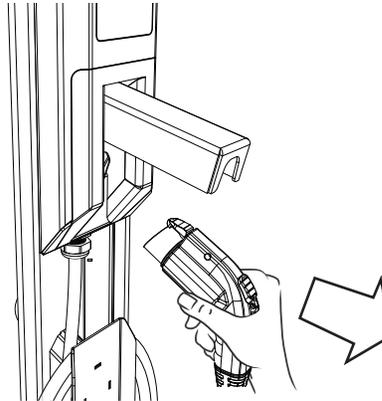

- 2 Wait while the system gives you access and does some testing.

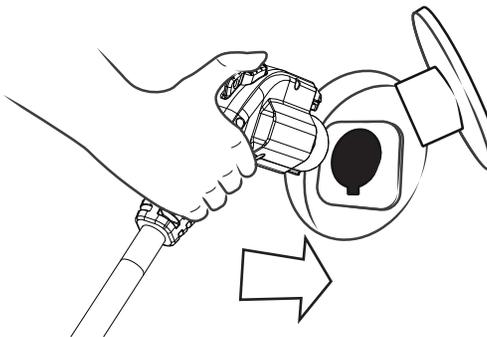

- 3 When the “Plug the connector to the vehicle” message displays, open the station’s door.

- 4 Pull out the connector and unroll the cable to an appropriate length.  
**WARNING:** Do not let the cable drag on the ground.

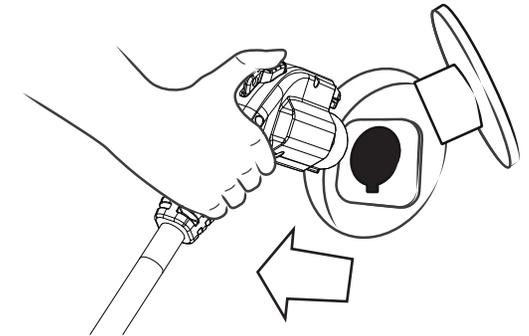

- 5 Plug the connector into the vehicle.

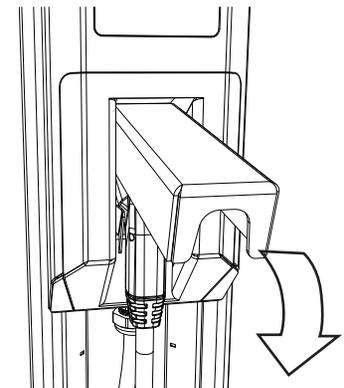

- 6 Let the vehicle charge for the requested period.

- 7 When the vehicle is charged, remove the connector from the vehicle.

- 8 Roll the cable up on its support, put the connector back into the station and close the door.

**WARNING:** an improperly rolled up cable represents a risk of falling or strangulation.
