5. **PUBLIC INPUT**

Mayor Desjardins noted that members of the public may speak for a maximum of 2 minutes and that there will be input from Council at the end of the period.

Rene D'Hollander, 436 Grafton Street, requested that the rocks be removed immediately and dumped into the gully.

Frances Litman, 474 Nelson Street, noted that she owns a professional photography business and uses the outlook at Denniston Park in her portraits. Ms. Litman stated that she no longer uses the Park and wishes to see it restored to its former state.

Ron Ptolemy, 1423 Craddock Street, stated that for 46 years he had access to the Park for fishing and demanded that the rocks be removed immediately.

Shirley Peters, 1326 Lyall Street, a resident for 12 years, noted her dismay at the current condition of Denniston Park and requested that it be restored to its original state.

Janet Jones, 1330 Lyall Street, resented the fact that there had been no consultation with the community before action was taken at Denniston Park. She stated that the Township cannot protect the community from everything and that children are well informed of the

danger by parents.

Sylvia Hammond, 467 Constance Avenue, noted that she walks her dogs at the park and wants the walkway to be repaired rather than seeing access cut off.

Betty Notar, 458 Foster Street, moved to the area 15 years ago and was struck by the beauty of Denniston Park. Ms. Notar noted that she is not aware of any accidents at the park and was appalled that tax dollars are being used in this way. Ms. Notar does not believe it is an insurance issue and felt that signage warning of danger is sufficient. She requested swift action from Council and demanded an apology to the residents.

Elaine Davis, 490 Constance Avenue, stated that she finds it unnecessary that so many rocks were used to block a narrow access. She suggested that signs be used to inform the community of the limitations to access.

Mark Armstrong, 464 Foster Street, noted that for the past 50 years he had been using the park. He mentioned that the walkway is used to view Canada Day fireworks by the community. Mr. Armstrong warned that the park will now be dangerous due to the huge rocks that children are climbing. He requested that the boulders be removed and that the cement walkway be restored.

Nancy Nigro, 458 Foster Street, 15 years a resident, noted that the Park is ruined and it seems more dangerous now.

John Craib, 456 Sturdee Street, noted that Esquimalt will need the Park as more people are moving into the area.

Rosemary Denniston, 430 Grafton Street, a resident for 18 years, stated that she has been operating a Bed & Breakfast for the past 17 years on her property next to Denniston Park. She noted that there were no accidents during that time. Ms. Denniston stated that the rights of residents were violated by not informing them of the action that was planned. She suggested a meeting where the issue of liability can be discussed and that the Park should be restored to its original state.

Anita Roberts, 1415 Craddock Street, a resident for 10 years, stated that the reason for her move to this property was the access to water. Ms. Roberts has health issues and suffered trauma as a result of the action taken by the Township. She also recommended that a historical assessment be done to determine whether there were safety issues in the past.

Ani Black, 461 Grafton Street, noted her shock at the lack of communication between the community, Council and the Mayor. She noted that people are climbing over three feet of rocks to gain access to the water. She requested that the Park be restored immediately.

Alexandra, Craddock Street, believes the park is not as dangerous as it looks and asked that the rocks be removed.

Ethel Denniston, 445 Grafton Street, stated that a photo taken in 1979 by her son shows that the walkway looks to be in better condition now.

Mayor Desjardins stated that the meeting proceedings will move to Item (6) of the agenda and will then return to the public input period.

6. **DELEGATIONS**

(1) Edwin Hubert, Denniston Park

Mr. Hubert, 469 Grafton Street, addressed Council and stated the following:

- The concrete encasement was decommissioned instead of repaired.
- Public input beforehand would have prevented this from occurring.
- Rocks are increasing the danger to the area.
- The gate was installed without prior notice and it had only been locked for a short period of time.
- The access to the ocean is the issue as the picnic tables are rarely used.

He stated that four mistakes were made during the process:

- (1) Decommissioning instead of repair
- (2) Municipality acted far beyond the scope allowed
- (3) Public was not notified
- (4) Attempt to block access was poorly executed

Mr. Hubert wished to make it clear that Mayor and Councillors are not to be blamed as they were not informed by Staff of the planned action. He asked Council to show leadership by authorizing the immediate removal of the rocks.

(2) Heather Peeters, Denniston Park

Ms. Peeters, 490 Grafton Street, noted she was an Early Childhood Educator introduced children who wished to address Council on Denniston Park. Delaney, Charlotte, Olivia and Max all stated that they enjoyed the Park and have fond memories of time spent there.

(3) Ian Black, Denniston Park

Mr. Ian Black, 461 Grafton Street, a resident for 14 years, presented a photograph taken on April 23rd, 2011 that shows the beauty of the park and the ocean.

Mr. Black noted that he is deeply saddened by the loss of the park and

feels that the reasons given for blocking access do not make any sense. He noted that the lack of public input and prior notice is of great concern.

Mr. Black referred to the petition signed by over 200 people that shows how serious this matter is to the community and requested the immediate removal of the rocks.

(4) Peggy Sutter, Denniston Park

Ms. Peggy Sutter, addressed council and noted that she is shocked and angered by the actions taken by the municipality. Ms. Sutter referred to the report and had questions about the action plan in reference to safety risks to residents. She expressed her concern regarding the lack of transparency around the decision making process. Ms. Sutter saw no reason to forward this issue to the 2012 budget discussions in the hope that the community will forget what happened. Ms. Sutter respectfully requested that Council make a motion to reverse the work that was done on April 19, 2011.

PUBLIC INPUT (Continued)

Mayor Desjardins returned to the public input period and invited members of the public that wished to speak to the Denniston Park issue.

Joe Driscoll, 462 Grafton Street, enjoys bringing friends to the park and wants to see it restored.

Ronald Warder, a previous Mayor of Esquimalt and no longer a resident, addressed Council and noted his shock and disbelief regarding Denniston Park. Mr. Warder asked if there should be a policy in place versus bureaucratic decision making being made.

Kristina Weiss, 464 Grafton Street, a new resident, noted that her 9 year old son is very upset as a result of what happened and requests swift action from the municipality to ensure that the public can use the park during this summer.

Marilyn Boulton, 438 Grafton Street, a resident for 25 years noted that children are aware of safety and emphasized the beauty of the area.

Mayor Desjardins called out for more public input. There were no further participants.

Mayor Desjardins thanked members of the public for their input and stressed that this Council is aware of the importance to involve the public with these issues. She noted that the events that took place were wrong and needed to be fixed.

Mayor Desjardins highlighted several key points Council have heard from the public that needs to be addressed going forward. The most

appealing factors to the community of using Denniston Park that had been lost through the actions of the municipality are:

- Loss of the view
- Inaccessibility of the ocean
- Need to access the water or need to see the water
- Loss of access to view point

Mayor Desjardins noted that she does recognize the safety concerns over the cement encasement walkway and gate as well as the erosion issue that needs attention. Mayor Desjardins stated the proper process was not followed and that public input has to be part of every process.

7. **STAFF REPORTS**

Engineering and Public Works

(1) Denniston Park Update, Staff Report No. EPW-11-010

Director of Engineering and Public works noted that during the 1940's the encasement and walkway by Denniston Park was built for the purpose of maintaining the storm drain. Over time, the encasement has been used by residents to access the shoreline. An inspection by the Municipal Insurance Agency of British Columbia (MIABC) found that the concrete encasement represented a life safety concern for the Township.

Discussion ensued on the actions taken by staff to decommission the encasement and that Mayor and Council were not notified that these actions were taking place. Council noted that the situation was handled poorly by the municipality and that no opportunity was given for public input.

Council issued an apology to the community and requested that immediate action be taken to restore Denniston Park to its original state before April 19th, 2011.

MOTION: That staff take immediate action to restore Denniston Park to its original state on April 19, 2011 before work began. **MOVED/SECONDED.** Councillor Linge/Councillor Gaul.

MOTION: To *amend* the motion by adding the words 'that staff immediately contact MIABC to canvass every and all remedies to address their liability concerns'. Councillor Linge/Councillor Gaul. **CARRIED UNANIMOUSLY.**

A vote was taken on the main motion as amended, with the final wording being as follows:

MOTION: That staff take immediate action to restore Denniston Park to its original state on April 19, 2011 before work began and that staff immediately contact MIABC to canvass every and all remedies to address their liability concerns.

PUBLIC INPUT (Continued)

Edwin Hubert, 469 Grafton Street, noted that the issue at hand is not about the safety but the liability concerns. He noted that the public has no concerns about the safety at Denniston Park. He emphasized again that the encasement should be restored to the original state and that the future decisions should be made in accordance with public input and open knowledge of the criteria as laid out by MIABC.

Ron Ptolemy, 1423 Craddock Street, noted that many of the risks identified are hypothetical and that he is interested in the actual risks presented.

Ruth D'Hollander, 436 Grafton Street, suggested that the municipality either restore or remove the concrete encasement to create a natural shoreline.

Mayor Desjardins commented that these issues will be addressed during the next stage of the public process. Mayor Desjardins invited members who wish to speak .

Muriel Dunn, 1193 Old Esquimalt Road, commented that she was pleased by the way the meeting was conducted but noted her disappointment in the lack of community involvement in all the other issues faced by the Municipality throughout the year.

Rene D'Hollander, 436 Grafton Street, suggested that the rocks be used to fill the gully.

Ani Black, 461 Grafton Street, noted that time is limited in which to repair Denniston Park to its original state. She referred to three major issues that needs to be addressed; removal of the rocks, repair to the asphalt and restoring the grass area.

RECESS Council took a short recess at 9:16 p.m.

RECONVENE Council reconvened the meeting at 9:25 p.m.
